

# Introducing the Youth Health Action Committee

## What?

A committee of engaged young people ages 15-18 working closely with the Worcester Division of Public Health to take action on pressing health issues in the Central Massachusetts area.

## How?

During monthly meetings we will engage in dialogue, skill-building, and action-oriented projects. Our first initiative will be a collaborative effort with the Regional Response to Addiction Partnership.

## Why should I apply?

- > Gain leadership experience
- > Learn about health equity and health disparities
- > Be a force of positive change in your community
